

April 7, 2020

Osage Families,

Due to the recent extension of school closure through April 30th, the Department of Education provided additional guidance for schools. We feel confident in the PK-12 plan that we have developed and implemented during the past three weeks. We will continue to follow what the state has labeled as “Voluntary Educational Enrichment Opportunities.” This aligns with our guiding principles outlined in the Osage Learning Opportunities smore, which can be found [here](#). Additional guidance for high school families will be provided by Mr. Hejhal. Our priorities are to keep our community healthy, continue to provide everyday needs for families, and educate students to the best of our ability. Thank you again for being the link that keeps our learning community strong!

Mrs. Schwamman and the Osage Administration Team
